2023

SPONSORSHIP GUIDELINES

Thank you for considering supporting us! Note that these are just general guidelines, and that we are flexible, and more than happy to work with you to make a partnership as beneficial as possible.

ABOUT US

The Rose-Hulman Fightn' Enginners are a Robomaster team which competes under the mantra 'Any Skill Level. Any Major. No Application. Always.'.

This philosophy has allowed us to grow from a small team of 5, to over 35 in just one year. With this growth, our goal for the 2023 season is to bring 3 brand new robots to our 2 broadcast competitions. Our members are currently hard at work designing, building, and coding these robots, but for such an ambitious project, we need support from corporate sponsors like you.

Fightn' Engineers
